Profile

Full Stack .NET & Flutter Developer with expertise in ASP.NET Core, Angular, Flutter, and SQL Server. Proficient in designing and developing scalable web and mobile applications, implementing clean architecture, design patterns, and secure authentication. Skilled in backend optimization, API development, and state management (BLoC in Flutter). Passionate about continuous learning, problem-solving, and building innovative digital solutions.

Internships

Information Technology Institute (ITI), Zagazig Branch

Nov. 2024 – Apr. 2025

Intensive Training Program – .NET Full Stack Web Development track

- **Graduation Project: RaTala - Bus Management System** [🔗](#)
 - A full-stack bus booking system with secure authentication, admin onboarding, route/station planning, and trip management for multiple user roles.
 - Included AI chatbot (RAG-based), live station mapping, approval workflows, feedback system, and role-based access.
 - **Technologies Used:** Angular, ASP.NET Core 9, SQL Server, Entity Framework Core, Identity, JWT, Onion Architecture, Email Service

Education

Zagazig University

2020 - 2024

B.Sc. in Information Technology (GPA: 3.63 - Excellent with Honors, Distinction)

- **Graduation Project: Epilepsy - Seizure Management Assistant**
 - Built a mobile application to support epilepsy patients by enhancing daily health monitoring, increasing safety, and improving doctor-patient communication.
 - Key features include medication scheduling with smart reminders, real-time seizure emergency alerts to companions, doctor-patient chat, and a seizure history log for diagnosis support.
 - Integrated a lightweight machine learning model to predict potential seizure risks based on user data inputs and history patterns.
 - Ensured secure authentication via Google, Facebook, and email/password with email link verification.
 - Followed Clean Architecture principles with MVVM structure using Cubit for scalable state management and Firebase for real-time services.
 - **Technologies Used:** Flutter, Firebase (Auth, Firestore, Messaging), Local Database API, Machine Learning Model, MVVM Architecture, Cubit
 - **Grade:** Awarded with High Distinction

Projects

Kito (Flutter Application) [🔗](#)

2024 – Aug. 2024

- Developed a responsive mobile app for a French keto diet restaurant featuring nutritional tracking, online ordering, and secure payments with Firebase Auth and PayPal/Stripe using Clean Architecture and Bloc.

- **Technologies Used:** Flutter, Firebase, Hive, REST API, Dio, Clean Architecture, Bloc, PayPal, Stripe

Bookly (Flutter Application) [🔗](#)

2023 – Nov. 2023

- Developed a responsive mobile app for an online book library featuring advanced search, personalized recommendations, and the latest book additions using MVVM architecture and API integration.
- **Technologies Used:** Flutter, REST API, MVVM, Bloc, Dio

Experiences

Freelancing

2023 – 2025

- E-Commerce Full stack web Application (.NET, Angular)
- X World (Flutter Mobile Application)
- Kito (Flutter Mobile Application)

Training

Information Technology Institute (ITI) [🔗](#)

Jul. 2022 – Sep. 2022

Mobile Development using Flutter (120 Hours)

- Covered Dart, Flutter, Firebase, and project development.

Online Courses

- TypeScript Fundamentals on Mahara-Tech ITI [🔗](#) Mar. 2025
- Payment Integration by PayPal & Stripe (Udemy - Tharwat Samy) [🔗](#) Aug. 2024
- Deep Dive into Clean Architecture in Flutter (Udemy - Tharwat Samy) Jun. 2024
- Flutter Advanced Course Bloc and MVVM Pattern (Udemy - Tharwat Samy) [🔗](#) 2024

Skills

Programming Languages: C#, Dart, Java, C++

Back-End Technologies: ASP.NET MVC, ASP.NET Web API, RESTful API, EF Core, LINQ, ADO.NET

Front-End Technologies: HTML5, CSS3, JavaScript (ES6+), TypeScript, Angular, Bootstrap, jQuery

Databases: MS SQL Server, MySQL

Concepts: OOP, SOLID, Design Principles (DRY, KISS, YAGNI), Design Patterns, DS & Algorithms, Agile

Mobile Development: Firebase (Auth, Notifications, Storage), State Management (Bloc, Cubit), Payments (PayPal, Stripe), RESTful APIs Integration, Local Database (SQLite, Shared Preferences, Hive),

Design Architecture: Clean Architecture, Onion Architecture, MVC, MVVM

Version Control: Git, GitHub

Tools: Visual Studio, VS Code, Android Studio, Trello, Notion

Soft Skills: Attention to Detail, Communication, Collaboration, Work Under Pressure, Presentation, Teamwork

Languages

- Arabic: Native
- English: Proficient
